

Center for Connected Health Policy TELEHEALTH & MEDICAID: A POLICY WEBINAR SERIES

Starting in January 2021, the Center for Connected Health Policy (CCHP) will organize and host a telehealth webinar series targeted at Medicaid agencies. Webinars will take place every Friday over a four-week period during Winter, Spring, and Fall 2021. This webinar series is FREE of charge for all who wish to attend.

Why?

State Medicaid agencies are tasked with administering their own programs and developing telehealth policy that suits the populations they serve. The COVID-19 pandemic has demonstrated the need for collaboration and information-sharing across Medicaid agencies. A webinar series targeted at Medicaid audiences provides an opportunity for peer experts to share promising telehealth policy models and insights on “what works?” at a time of when Medicaid agencies are facing unprecedented public health challenges.

WINTER SERIES 2021: Telehealth Policy and COVID-19

*Each webinar will take place from 11:00a-12:30p PST
